HP Desktop and Mobile Workstation PCs

Unleash the unexpected
Removing barriers to brilliance

Key features

High-end graphics

Render and animate in real-time with NVIDIA® RTX professional, or AMD Radeon Pro graphics. Z workstations give you the detail and speed you need, plus application-specific features to optimize complex design modeling, dataset manipulation, visual effects, and visualization.

Advanced processors

Get high frequency performance with the latest generation Intel® Xeon® and Intel® Core, including K-series and vPro® processors, and seamlessly run demanding professional apps like Adobe Premiere Pro, SOLIDWORKS, and Autodesk.

Large memory configurations

Run your largest applications simultaneously and save time with up to 128 GB RAM on Z laptops and up to 2 TB on Z desktops.

Power your workflows like never before

HP Z2 Tower G9

Experience a new level of performance for your professional workflow. The Z2 Tower seamlessly runs multi-threaded apps for fast rendering, simulation, and real-time ray tracing. And when demands change, you have impressive expandability to upgrade.
